

## Governor Tours Design-Build Project 1216!

Special recognition is in order for the GCC workforce and our great teams who are working on the Design Build Project 1216 (future I-49).

Louisiana Governor John Bel Edwards and other elected officials (Senator Bret Allain and Representative Sam Jones) met with LADOTD, Randy Gilchrist, and GCC Project 1216 teams on Monday, August 8<sup>th</sup>, to tour the project site and discuss the success of the design-build concept of road construction. Our project team did a great job of providing a tour, explaining the work that has been completed on the project to-date, and discussing plans for upcoming work operations.
