

Asphalt Plant receives NAPA Awards

The National Asphalt Paving Association (NAPA) has awarded the Alexandria Asphalt Plant both the Diamond Achievement Commendation and Diamond Quality Commendation Awards.

The Diamond Achievement Commendation was received for excellence in Hot-Mix Asphalt Plant/Site Operations. Patterns of growth all over the country have placed many asphalt plants in the midst of communities. This development makes it imperative that asphalt plants demonstrate good corporate citizenship and neighbor-friendly operations. The assessment of the plant/site operations included appearance, operations, environmental practices, safety, permitting and regulatory compliance, and community relations.

The Diamond Quality Commendation focused on plant practices resulting in excellent product quality. This Commendation extends the idea of a blueprint for excellence to the pavement material that is produced. The areas evaluated included quality management, rap and aggregate handling, asphalt storage, drying and mixing, air quality, truck scales, silos, and control rooms.

Congratulations to the entire Asphalt Crew. These awards reflect the results of living our Core Purpose: “working together to improve ourselves, our industry, and our communities.”
